DOWNTOWN

LA BASILIQUE NOTRE-DAME

Avenue Jean Médecin (H4)

The largest church in Nice and the first modern religious structure, the basilica of Notre-Dame was built after Nice became French (1864-1868). Inspired by the Cathedral of Angers with its two square towers, it is adorned with 19th-century stained-glass windows and a sumptuous rose window with scenes of the Assumption.

LA PLACE MASSÉNA (H4/5) &

Built in the 1840s, Place Masséna remains the jewel of Nice. The square was renovated in 2007, accompanied by the installation of artworks along the tramway: seven statues devised by the Spanish artist Jaume Plensa, titled 'Conversation in Nice' and representing the seven continents.

LA PROMENADE DES ANGLAIS (B8 à H5) &

It was widened by an Englishman, Reverend Lewis Way, at his expense in 1820 and the local population soon dubbed it 'Chemin des Anglais'. In 1931, when it was given its final form with two roadways separated by a central reservation planted with palm trees, the 'Prom' was inaugurated by the Duke of Connaught, one of Queen Victoria's sons. Promenade des Anglais is always beautifully decked in flowers, with many public and private beaches on one side and the prestigious façades of luxury hotels and buildings on the other, recalling the Belle Epoque like the famous hotel "le Negresco".

LE MONUMENT DU CENTENAIRE (CENTENNIAL MONUMENT) &

From Nice, along the tiny winding roads of the hinterland or the legendary busy roads along the sea, you can discover the splendid coastal towns, lovely perched villages, rugged valleys, natural parks, towering mountains...

COASTAL AREA

Here, the natural splendors of the coastline combine with the riches of its heritage... From time immemorial, its brightness and its dazzling beauty have inspired the greatest masters in fields as varied as architecture, painting, music or cinema. The unspoiled shoreline is turned towards the Mediterranean and its pleasures: creeks and sea-beds rhyme with sailing, water skiing or scuba diving. The cities that dot it are in effervescence day and night: gastronomy, shopping, culture, events, everything is there! Authenticity and art of living characterize this multi-faceted territory, which has reinvented itself over the centuries to become a precursor in many areas: sustainable development, smart networks, research and innovation...

MID-COUNTRY

Not far from the shores of the Mediterranean, this area offers a haven of calm, freshness and serenity. The villages, nestled in lush greenery or clinging to the cliff like eagle nests, invite the visitor to stroll through their charming streets. He will discover a preserved heritage: old oil mills, facades, fountains, wash houses, and, at the turn of a chapel... a panoramic view of the valleys, the sea or the mountains. This unique setting, bathed in sunshine that exalts the colors, has seduced the greatest artists... Following in their footsteps, in search of the works left in inheritance, will enchant art lovers. The surrounding countryside is the true paradise for sportsmen who will take hiking or biking trails, or cool off in the gorges for a canyoning descent.

THE HIGH LAND

Citadel of the metropolis with its mountain massif culminating at 3,143 meters, nature has carved, over the centuries, grandiose landscapes. Villages, built on the rock or unfolding harmoniously in the valleys, offer the authenticity of a jealously guarded heritage. In summer, it is a privileged site for an active outdoor holiday, famous for the beauty of its lakes, forests, summits, clues... In winter, it is a paradise for board sports with its ski resorts offering snow and sunshine... Quite simply, this haven of calm and freshness delivers a privileged site for a stay in the fresh air in a setting of magnificent mountains!
