

Tuesday

POSTER SESSION 1

	Schedule	Session	Port Lympia Room 1	Port Lympia Room 2	Port Lympia Room 3	Port Lympia Room 4	Port Lympia Room 5	Port Lympia Room 6	Live Broadcast Overflow Room for Room 6	Port Lympia Room 7	Port Lympia Room 8	The Whale Green Zone
<div> <div>Wednesday</div> <div>4</div> </div>	09:00 – 10:00	TOWN HALLS 2	TM8 The Need for a Sustained and Fit-for-Purpose Ocean Observing System: From Physics to Socio-Ecosystems	TM9 Greening the Blue... how the IUCN Green List for protected and conserved areas can help us meet the 30×30 objective	TM24 Call for action to advance ocean prediction capabilities for the benefits of society	TM4 Funding research at multi-levels to contribute to the objectives of The Ocean Decade	TM14 Bringing the Outside, In: Voices for The Science We Need for the Ocean We Want	TM25 Using private enterprise to support scientific pursuits while engaging public interest in the deep ocean	Live Broadcast Overflow Room for Using private enterprise to support scientific pursuits while engaging public interest in the deep ocean	TM23 Government-focused principles for ethical and effective marine carbon dioxide removal development and deployment	TM13 Ocean observation governance in the 21st century: what history tells us about the future	
	10:00 – 10:30	COFFEE BREAK • COFFEE BREAK										
	10:30 – 12:00	KEYNOTE 1–3	K6 Securing ocean life for sustainable development by David Obura K1 Ocean Rights: Human and Non-Human Rights to a Healthy Ocean by Michelle Bender K4 Blue Economy and Smart Ocean in Sustainable Developments by Takashi Gojobori	Live Broadcast Overflow Room for Keynote Speeches								
	12:00 – 14:00	LUNCH DISTRIBUTION • LUNCH DISTRIBUTION										
	12:45 – 13:45	TOWN HALLS 3	TM12 Enhanced Carbon Dioxide Removal Through Ocean Negative Carbon Emission Approaches	TM21 Marine Knowledge at the Fingertips of our Communities: Designing Digital Twins of the Ocean	TM29 Space observations for monitoring coastal hazards	TM10 Capacity Development in the UN Ocean Decade ECOP Programme: successes, challenges, and ways forward	TM20 Evolving EIAs for an ecologically sustainable future	TM32 Blue Energy: The new frontier of the Costa Rica’s ocean-based energy portfolio	Live Broadcast Overflow Room for Blue Energy: The new frontier of the Costa Rica’s ocean-based energy portfolio	TM6 A Holistic Approach to Tackling the Rise of Harmful Algal Bloom (HAB) Impacts Worldwide	TM7 Moving towards integrated evaluation approaches in support of ocean policy.	
	14:00 – 15:30	PARALLEL ORAL SESSION 4	T2 – 1 Ocean-climate interactions and changes, with a particular emphasis on extreme events	T2 – 5a Carbon dioxide removal approaches: effectiveness, durability, risks, as well as monitoring, reporting and verification. Contributions addressing justice, governance and policy aspects are also welcome	T10 – 8 Voices of local actors, public awareness and education	T1 – 8 Indigenous peoples: knowledge systems, fisheries and environmental challenges	T4 – 4 One Ocean, many deep-seas: what human uses?	T7 – 2 Practices for supporting equitable and transgenerational access to aquatic foods	Live Broadcast Overflow Room for T7 – 2 Practices for supporting equitable and transgenerational access to aquatic foods	T3 – 6b Marine biodiversity observation and monitoring	T10 – 2a Research infrastructure to sustain, expand and share ocean observations, data, monitoring and modelling	
	15:30 – 16:00	COFFEE BREAK • COFFEE BREAK										
	16:00 – 17:30	PARALLEL ORAL SESSION 5	T3 – 7b Marine pollution and other sources of ocean degradation	T2 – 5b Carbon dioxide removal approaches: effectiveness, durability, risks, as well as monitoring, reporting and verification. Contributions addressing justice, governance and policy aspects are also welcome	T5 – 2 Exploring the Blue Frontier: Two Decades of Resources from the Tara Research Schooner	T10 – 5 Ocean governance and management	T7 – 7 Illuminating the role of women in marine socio-ecological and food systems	T4 – 2 Environmental, social and economic impacts arising from deep-ocean activities	Live Broadcast Overflow Room for T4 – 2 Environmental, social and economic impacts arising from deep-ocean activities	T3 – 6c Marine biodiversity observation and monitoring	T10 – 2b Research infrastructure to sustain, expand and share ocean observations, data, monitoring and modelling	
	18:00 – 20:00	POSTER SESSION 2										POSTER SESSION 2

Thursday

5

	Schedule	Session	Port Lympia Room 1	Port Lympia Room 2	Port Lympia Room 3	Port Lympia Room 4	Port Lympia Room 5	Port Lympia Room 6	Live Broadcast Overflow Room for Room 6	Port Lympia Room 7	Port Lympia Room 8	The Whale Green Zone
	08:30 – 10:00	PARALLEL ORAL SESSION 6	T3 – 10 Protection and restoration of marine and coastal ecosystems to ensure sustainable and equitable management: Open Session	T2 – 7b Effectiveness, equitability and safety of ocean-based approaches to reach the mitigation and adaptation goals of the Paris Climate Agreement: open session	T7 – 4 Improving understanding of the role of aquatic foods in food security and sovereignty	T10 – 16 Driving Global Action for Ocean Sustainability: The Role of an International Platform for Ocean Sustainability (IPOS)	T4 – 6 Knowledge of the deep ocean and ways to enable its sustainable use: Open Session	T10 – 6 Capacity-building and sharing, knowledge exchange	Live Broadcast Overflow Room for T10 – 6 Capacity-building and sharing, knowledge exchange	T10 – 12 ECOP session 2: Innovation: exploring low-tech/low-cost solutions for ocean science	T10 – 2c Research infrastructure to sustain, expand and share ocean observations, data, monitoring and modelling	
	10:00 – 10:30	COFFEE BREAK • COFFEE BREAK										
	10:30 – 12:00	KEYNOTE 4 – 6	K7 Uncertain Future for Fish and Fisheries: A Call for Action and Adaptation by Yunne Shin K5 Diverse Food Systems Support Justice and Nutrition by Christina Hicks K2 Understanding Ocean Carbon Storage in the Era of Carbon Management by Corinne Le Quéré	Live Broadcast Overflow Room for Keynote Speeches								
	12:00 – 14:00	LUNCH DISTRIBUTION • LUNCH										
	12:45 – 13:45	TOWN HALLS 4	TM30 Underpinning Ocean Knowledge for Societal Benefit: The Urgency to Implement OneArgo by 2030	TM2 Should 30×30 include temporary protection?	TM18 Which knowledge do we want for conserving ocean biodiversity and securing small-scale fisheries?	TM3 Coastal and ocean-based tourism – a threat to the coastal environment or driver of restoration and sustainable development?	TM31 Optimising the potential of aquatic food systems - Science needs for a Blue Transformation	TM26 The Cassandra Local Climate Forums: Lessons for ocean sustainability from a socio-political approach to climate change	Live Broadcast Overflow Room for The Cassandra Local Climate Forums: Lessons for ocean sustainability from a socio-political approach to climate change	TM33 Blue Carbon in the Global Ocean	TM11 Scientific support to the BBNJ Agreement	
	14:00 – 15:30	PARALLEL ORAL SESSION 7	T3 – 9a Restoration of marine ecosystems	T2 – 2a Impacts and risks of a changing ocean on ecosystems and society, including ocean warming and acidification, deoxygenation, sea-level rise	T10 – 7 Cooperative and cost-effective planetary ocean biology	T10 – 9a Strengthening the link between science and policy in the context of international ocean governance	T7 – 3 Practices for supporting small-scale fishery and mariculture actors	T6 – 7 Transparency in the fisheries sector, including illegal, unreported and unregulated fishing: Open Session	Live Broadcast Overflow Room for T6 – 7 Transparency in the fisheries sector, including illegal, unreported and unregulated fishing: Open Session	T3 – 6d Marine biodiversity observation and monitoring	T10 – 18 From Science to Shoreline: Bridging Knowledge, Policy, and Action for Coastal Resilience	
	15:30 – 16:00	COFFEE BREAK • COFFEE BREAK										
	16:00 – 17:30	PARALLEL ORAL SESSION 8	T3 – 9b Restoration of marine ecosystems	T2 – 2b Impacts and risks of a changing ocean on ecosystems and society, including ocean warming and acidification, deoxygenation, sea-level rise	T7 – 6 Sustainability, equitability, and safety of ocean-based food systems: Open Session	T3 – 6e Marine biodiversity observation and monitoring	T1 – 6a Inclusive actions: uplifting voices of local actors, creating public awareness and increasing ocean education and literacy	T9 – 1a Environmental footprint of maritime transport and decarbonization of shipping: Open session	Live Broadcast Overflow Room for T9 – 1a Environmental footprint of maritime transport and decarbonization of shipping: Open session	T8 – 2b Plastic pollution: impacts, fate, and innovations	T10 – 19 Connecting Ocean Science to Global Biodiversity Goals: Observations, Data, and Knowledge to Support GBF and BBNJ Implementation	
	18:00 – 20:00	POSTER SESSION 3										POSTER SESSION 3

6
